Selina's Feedback to Julia:

1. Love the new color scheme! Maybe try experimenting the same way with subtitles? But I'm okay with the colors of the subtitles right now.
2. I personally don't like the drop shadow of subtitles - doesn't really fit the whole minimalistic Warhol vibe.
3. Smaller font size, smaller line height, more padding on both left and right (so that readers don't have to move their eyes across the screen)
